

# *Welcome!*

At Skärets Krog we are passionate about food and beverage! Our Ambition is for you to have a tasting experience you will never forget. That is why we have composed two different menus. One with 4 servings and one with 6. The best that the house can offer. All adjusted to be enough. Just sit back, relax and enjoy!

To enhance the flavours of the food we have put together a wine package paired to the menus, which you can choose to add. Our food philosophy is to source the finest ingredients available from the sea, the garden and the farm. We try to get all our products from our surroundings, in Sotenäs, wherever possible. We work, among others, with Klevs Gård in Bovallstrand for vegetables and herbs, together with Smögens Fiskauktion, for fish and seafood. Our courses are well made, nutritious and seasonal.

Here at Skärets Krog we have also teamed up with Thoreau, a system that filters and cools water. Thanks to our partnership we contribute to a healthy environment as well as enjoying ice cold, filtered water.

If you have any questions or want to ask about allergies, don't hesitate to ask us.

Once again, welcome to Skärets Krog!

*Thomas, Niklas, Liam & Alma with staff.*
